

Current Awareness Service

What is it? KnowledgeShare is our targeted current awareness service. The alerts include resources like guidelines, systematic reviews and selected high-level journals - you will not be inundated with primary research articles.

Why use it? We give you the latest high-level evidence in your field.

How does it work? Your KnowledgeShare profile is created to be as broad or as specific as you need. For example, you could receive everything published on obstetrics or limit to receive items related to gestational diabetes.

You must be a library member to receive current awareness.

Name:		Title:	Dr	Miss	Mr	Mrs	Ms
Job title:		Department:					
Work address:							
Email:		Telephone:					

Condition/Risk factors: (eg gestational diabetes, respiratory diseases)		Professional interests: (eg providing education, conducting research)
