Title: NMC revalidation... A CPD article improved Tracie Jones's knowledge of the requirements for revalidation and developing a portfolio

Citation: Nursing Standard, 2016, vol./is.30/28(61-62)

Author: Jones, Tracie

Abstract: As a newly qualified nurse, I am aware of what is expected of me with regard to revalidation as part of the Nursing and Midwifery Council's (NMC) registration process. Reading the article has improved my confidence in this area.

Source: CINAHL

Title: RCNi's online learning resource will help you with revalidation.

Citation: Nursing standard, Mar 2016, vol. 30,no. 28, p. 7

Abstract: RCNi is launching an e-learning platform with more than 100 modules to support nurses through their studies, continuing professional development and revalidation.

Title: Revalidation: dispelling the myths.

Citation: Practice Nurse, 2016, vol./is. 46/3(12)

Abstract: The article focuses on facts behind the most common misconceptions about revalidation process from Nursing and Midwifery Council (NMC). Topics discussed include submitting revalidation application by using NMC Online tool, twice revalidation for dual registered nurses, use of midwifery skills to meet the requirements of revalidation, and the differences between the revalidation processes for doctors, and for nurses and midwives.

Source: CINAHL

Title: Why practice nurses should feel positive about revalidation.

Citation: Practice Nurse, 2016, vol./is. 46/3(10)

Author: Elkin, Marcela

Abstract: In this article, the author focuses on the approach of revalidation for *Practice Nurse*. Topics discussed include pilot of the revalidation process of the Nursing and Midwifery Council (NMC), linking of practice to the Code which has helped to develop professionalism, challenges of revalidation, importance of collecting evidence, and the impact of revalidation process on *Practice Nurse*.

Title: Final lessons from road-testing revalidation.

Citation: Nursing Standard, 2016, vol./is. 30/30(18-19)

Author: Moore, Alison

Abstract: As of April 1, all nurses and midwives will have to revalidate with the Nursing and Midwifery Council every three years to remain on the register. The largest of the UK revalidation pilots took place at Aneurin Bevan University Health Board in Wales. This article looks at how the pilot experience has equipped the board to predict nurses concerns and steer them through the revalidation process.

Title: Registrants' guide to revalidation.

Citation: Nursing older people, Mar 2016, vol. 28, no. 3, p. 11

Author: Marriott, Beverley

Abstract: As one of the first cohort of nurses required to complete the Nursing and Midwifery Council's (NMC) new revalidation process this month, I initially felt daunted by the prospect. Questions raced through my mind: 'What evidence will I need? What challenges will it bring? How long will it take? Will I get it right?'

Source: Medline

Title: Are you ready for revalidation?

Citation: Nursing older people, Mar 2016, vol. 28, no. 3, p. 5

Author: Nicky Hayes

Abstract: The Nursing and Midwifery Council launches its new revalidation system for UK nurses and midwives this month. While revalidation applies to all nurses and midwives, regardless of specialty, Nursing Older People is taking a special interest in its implications for nurses who work with older people.

Title: Improving access to CPD is absolutely vital.

Citation: Nursing standard, Mar 2016, vol. 30,no. 31, p. 3

Author: Graham Scott

Abstract: Revalidation has arrived. Years in the making, testing and fine tuning, the new system is designed to offer assurance to the public that nurses and midwives are keeping their knowledge, skills and practice up to date. The first 16,000 registrants to be affected directly have until this week to complete the process on the Nursing and Midwifery Council website.

Title: Early birds prove revalidation success, says NMC.

Citation: Nursing standard, Mar 2016, vol. 30, no. 31, p. 8

Abstract: Revalidation, the new system for nurses to prove they are fit to practise, starts this week with close to 16,000 nurses due to go through the process in April alone.

Source: Medline

Title: Revalidation starts for first wave of nurses and midwives.

Citation: Nursing older people, Mar 2016, vol. 28, no. 3, p. 8-9

Author: Dean, Erin

Abstract: AT THE start of this month, the first nurses to use the new revalidation system will have completed their applications and maintained their registration. By April 2019, every nurse and midwife in the UK will have gone through the process.

Source: Medline

Title: A change for the better.

Citation: Nursing standard, Mar 2016, vol. 30, no. 31, p. 24-25

Author: Smith, Jackie

Abstract: Revalidation, one of the most significant changes to the regulation of nurses and midwives, is now under way.

Source: Medline

Title: Get the most from revalidation.

Citation: Nursing Management, April 2016, vol./is. 23/1(8-9)

Author: Dean, Erin

Abstract: At the start of this month, the first nurses to begin the revalidation process will have completed their applications to maintain their places on the Nursing and Midwifery Council (NMC) register. By April 2019, every nurse and midwife in the UK will have gone through the new system.

Source: CINAHL

Title: Revalidation offers nurses and midwives opportunities.

Citation: Primary Health Care, March 2016, vol./is. 26/3(8-9)

Author: Erin Dean

Abstract: BY THE beginning of this month, the first nurses to use the new revalidation system will have completed their application and maintained their registration. By April 2019, every nurse and midwife in the UK will have gone through the system developed by the Nursing and Midwifery Council (NMC).

Source: CINAHL

Title: 10 things you need to do for revalidation.

Citation: Nursing Standard, March 2016, vol./is. 30/31(18-20)

Author: Moore, Alison

Abstract: Still concerned about revalidation? Our top tips will help ensure you have everything in place to renew your registration with the NMC, as Alison Moore explains.

Source: CINAHL

Title: Helping nurses through the revalidation process.

Citation: Nursing Management, 2016, vol./is. 23/1(27-29)

Author: Edwards, Paul

Abstract: Revalidation can seem challenging for some nurses and managers, but with the support of their organisations they can engage confidently with the process. This article describes Bupa's approach to creating an infrastructure that embeds revalidation in its services. This includes letting nurse leaders know so that they can help nurses through the process, and developing a pathway that supports nurses' ongoing learning and development.
